As we find ourselves entering another week of lockdown I feel it is important to say well done to the Worsley Bridge Primary School community. Regardless of the challenging circumstances, Worsley Bridge families have remained home and this has meant that those of us in school have stayed well. Thank you Worsley Bridge, you continue to play your part and we are very grateful.

Despite what some of the papers might be saying about teachers our staff have continued to work diligently to produce new home learning packs, record videos for the website and make contact with children in their classes. Many staff are in the school building supporting the running of the hub school and many more will be in as we prepare for the proposed reopening in June.

As you can imagine there are many challenges ahead of us but at the forefront of all our plans will be the safety of our pupils, staff and parent community. For many it will be a difficult decision as to whether or not you should send your child back into school. Only you can make that choice but we will support you as much as we can by sharing in full the preparations we have made in school. Plans will be formalised over the coming week and then published on our website as well as being emailed to you. We are being well supported by the central team in NEST, and as I have already mentioned, staff here at Worsley Bridge are being incredible. I feel very privileged to be working with such a caring, resilient and supportive team.

Now on to a more cheerful note - our wonderful children. Please take the time to watch our latest video. We have created a 'virtual celebration assembly' to show the children just how impressed we

are with their learning and the activities they are completing at home with their new teachers! Teachers talk about how children are trying to learning new languages, creating stories, recreating scenes from history to name but a few of the incredible things going on at home. Mrs Lazarski has also emailed me with some pictures from her class. I have loved seeing Sophie's home grown bean-maybe Sophie we can climb to the top and discover a 'Golden Goose'. I am also very keen to take a visit to Huxley's house as the meal he prepared looked delicious-as did the desserts! Maybe a new Jamie Oliver in the making?

I wonder what will be sent my way over the coming week? Don't forget to come and collect your new home learning packs-they can be collected any time today. If you can't make it today give us a call to let us know when you will be in. We

will be in touch soon but in the meantime stay well, complete the survey from NEST <https://www.surveymonkey.co.uk/r/ZCRHZRT> and enjoy the wonderful weather.

Mrs Williams
